

item number	H	thickness of metal sheet
NIXSUK 50	46	0,8
NIXSUK 100	96	0,8

product description: Angle couplings are mostly used at places where the route is slightly bended, for large bending radiuses or for the circumvention of columns and pillars.

The advantage of an angle coupling is that it makes it easy to create a break in a tray of almost any angle.

To fix the connection use the bolt NIXSM 6X10. To protect the cables, the bolt head is inside the cable tray.

configuration: IX - stainless steel AISI 304
(AISI 316, AISI 316L only to order)

sales amount: á 1 pc

certification: EN 61537:02

storage: EN 60721-3-1
