

**outer side hanger**

type number: **ZVB 1.5**

thickness of metal sheet: 1 mm

product description: The outer side hanger is used to suspend cable trays running through cable ladders from the ZT 8 threaded rod.

The hanger is attached to the tray by snapping the protrusions on the hanger into the sidewalls of the ladder.

The threaded rod is attached using a PD 8 washer and M 8 nut.

The hanger is designed for a cable ladder, or for a cable tray 1.5 mm thick.

1 hanger is supplied. 2 hangers are required to create one suspension point.

The max. load on 1 ZVB 1.5 hanger is 60 kg.

The product is protected by the utility model.

configuration: S - Pre-Galvanized, zinc-layer 15 - 27  $\mu\text{m}$
